

ezRack BIPV Frame

solarF ID:FSTCL001

The Clenergy ezRack BIPV Frame has been developed as a universal PV module mounting system for various building installations for water proof function. The innovative and patented aluminum rails, UV resistant EPDM and rubber clamp make the perfect function for water proof which realizes the panel roof integration.

- Easy Installation
- Great Flexibility
- Excellent Compatibility
- Excellent Adaptability
- Designed to high standards
- Guaranteed Durability

| Items | Parameters |
|--------------------|---|
| Installation Site | Building surface |
| Module Slop | According to the practical demand |
| Height | According to the practical demand |
| Wind Load | 60m/s |
| Snow Load | 1.4KN/m ² |
| PV Modules | Framed |
| Module Orientation | Vertical |
| Module Width | Any |
| Standard | AS/NZS 1170 and other international standards |
| Support Rail | Extruded aluminum |
| Color | Natural |
| Warranty | 10 years durability on material |
